Six months.....2.50
Delivered by carrier to any part of the city for 35 cents per month.

AUGUST, - - - 21, 1892

Knock silver down to 75 and there will be no need of any monetary conference.

A PETITION has been forwarded to President Harrison, asking his clemency for the Garza followers, imprisoned for the violation of the neutrality laws.

THE Democratic County Central Committee of Gila county, have fixed Saturday, August 27th for holding the primaries, and September 3d for holding this county convention.

THE greatest rate war ever known among southern railroads, has been declared. The Memphis Passenger association has actually collapsed, and in the future there will be a cut game for business among the trunk lines.

FROM the gradual dropping of the price of silver and the lack of the gradual dropping of rain water, it is a problem whether it would be better to boom Arizona as a mining camp or a cattle ranch.

A WELL founded story is going the rounds which says that George Cheyney will not get and does not expect to get the nomination for Congress, but that his work is being done for another member of the G. O. P.

THE Washington papers are calling upon the commissioners of the district to give less attention to Sunday observance and more to the cleaning of the city. It is pictured as reeking with garbage and other filth.

THE Texas & Pacific will sell on September 2d and 3d excursion tickets to New Orleans to the great contest between Sullivan and Corbett. They also have reserved seats for the slugging match for sale at El Paso.

Two large and commodious safes have been placed in the headquarters of the National Republican committee at New York. Thus the base of supplies is established and the G. O. P. will open a campaign of persuasion.

A DISPATCH from Phoenix under date of yesterday says that Gov. Murphy received information from the Equitable Mortgage Co. that \$75,000 was deposited as a guarantee that the company will accept the \$1,000,000 territorial bonds at par and the contract was forwarded for signature.

If Mr. Cheyney wants the nomination for congress on the Republican ticket he should have it. It would be rank treason to think of placing any one else in nomination. No one can be elected whom the Republicans put up, and the man who can survive defeat with as good a grace as Mr. Cheyney should never be sacrificed in a convention.

HENRY CLEWS says that silver should be stricken from the list of securities on the New York exchange, and speculation in certificates be prohibited. The idea is all right but it would result in the same way as a mortgage tax. It might change a certain routine but the result would be the same as before. It might not be dealt in publicly, but privately the speculation would still be rampant.

THE paper of today and the paper of forty years ago are two different affairs. Then news was a secondary consideration, and politics took up all of the editor's attention. It was a comparatively easy matter to run a paper in those days. A Republican organ never had the effrontery to bid for printing from a Democratic administration, city, county or state. To the victors belonged the spoils. Now this is all changed. News first and politics afterward is the rule. Competition for public printing is so sharp that the papers which fought the victorious office holders during an election get all of the plums. What a heavenly time had the editor of a half century ago and the question arises, couldn't the legislature of this territory fix things so that Democratic printing could not be given to a Republican paper and vice versa. If the editor has to make enemies during a campaign, he at least ought to have the privilege of making his friends pay for it when the battle is over.

From Tuesday's Daily.

The Emerald mine is being prospected and some rich ore is being found.

Mrs. Wm. Kieke and child left today for Albuquerque to join Mr. Kieke.

Russia is taking heroic measures to check the spread of the cholera by killing doctors.

Jo Madera is running a Spanish paper in Tucson. He is qualified to make a success of it.

The Grand Canyon is being well advertised by the press and the railroad companies, and the result is satisfactory to all concerned.

Owing to the indisposition of one of the PROSPECTOR force, and there being no one to fill his place, this evening's paper is inferior than usual.

Professor Wood, the blind musician, who circulated around this section of the country a couple of years ago, has married an accomplished singer, and is doing the northern part of the territory.

General McCook has returned to Los Angeles, and tells the people there that there is nothing in the reported contemplated removal of headquarters to Santa Fe.

It takes ten columns of space in the New York World to recapitulate all the strikes which have occurred in protected industries in this country since the McKinley law went into effect.

If you want a healthful sparkling ice cold drink of that which cheers but does not inebriate, call for Root Beer at Miller's Drug Store.

Tim Griffith is in town. He has started a stage line to run from Bisbee to Tombstone, and will carry freight and passengers. He will make a specialty of carrying C. O. D. packages. See advertisement in another column.

Do you want to save from 25 to 50 cents on every dollar you spend? If so write for our Mammoth illustrated catalogue, containing lowest manufacturers' prices of groceries, dry goods, boots and shoes, clothing, hardware, agricultural implements, etc. Mailed on receipt of 20 cents for postage.

CHICAGO GENERAL SUPPLY CO., 178 W. Van Buren St.

Mrs. Potter Palmer, who is to drive the last nail in women's World's Fair building, has already had numerous offers of sympathy from ladies who have done so before. They tell her the thumb returns to its normal color and condition in from four to nine weeks, according to the weight of the hammer and the enthusiasm of the blow.

The driving of the first spike and the laying of first rail on the Santa Fe Prescott and Phoenix railway was to begin this morning at Ash Fork. Our correspondent states that a large force of men familiar with the work had arrived there Tuesday evening and everything was in readiness to commence. Three division engineers were on the ground and several car loads of steel rails were side tracked, twenty miles of this material being the estimated measurement.—Journal Miner.

Tom Kelly, a former Globeite, arrived a few days since, direct from White Hills, the bonanza camp of Mohave county. He speaks well of the camp but says it is no place for a man to go expecting to get work. The claims are rich on the surface, but are as yet mere prospects. The water problem is an important one, and if the efforts being made to obtain it in quantity at the mines is not successful the mills will have to be located on the Colorado river 25 miles distant.—Globe Silver Belt.

One of the greatest advertisements the mining industry of Arizona ever had was the two great bars of bullion which the Bonanza shipped, one being brought to Phoenix worth over \$80,000 and one being taken to Aztec worth over \$90,000. When at Aztec the bar was lying on the platform of the depot, when the passengers on the train saw the great bar, they were lost in wonder to see such a mass of money lying around loose as it were. When they went back east they told their friends, and so the tale started; the eastern papers took it up and now every miner in the Harqua Hala get letters by the dozen inquiring about their prospects, and a great many men from the east will be out this fall to view property with the intention of investing.—Mining Review.

BISBEE COLUMN.

August 15.

Ben Clark, who was sand-bagged a few days ago has fully recovered from his injury, but there is no clue to the perpetrator of the dastardly deed.

The attendance at Sunday School fell from 153 to 79 on the day after the picnic.

Charlie Smith, the line rider, who was shot some weeks ago, will be out on crutches in a few days.

A CARD OF THANKS.—The members of the Bisbee Union Sunday School wish to express their thanks to Mr. Ben Williams, Mrs. Lewis Williams and the ladies who assisted in making the picnic a success.

ALBERT WITTIG,
EDITH HUGHES,
LILLIE BURR,
BERTHA WITTIG,
Committee.

Mrs. Varnum came in on Saturday and the Professor is now on his good behavior.

Some twenty or thirty of the young people went on a picnic yesterday to Hereford. A pleasant time is reported.

\$500 Will be Given

For any case of Rheumatism which can not be cured by Dr. Drummond's Lightning Remedy. The proprietors do not hide this offer, but print it in bold type on all their circulars, wrappers, printed matter, and through the columns of the newspapers everywhere. It will work wonders, one bottle curing nearly every case. If the druggist has not got it he will order it, or it will be sent to any address by prepaid express on receipt of price, \$5. Drummond Medicine Co. 48-50 Maiden Lane, New York. Agents wanted.

THE unpleasant intelligence is wired from London, that of the conference members, Mr. Currie, of the banking firm of Glynn, Currie & Co. is the strongest man appointed by England. He has no tendency whatever toward bimetalism. On the contrary, he is sound for a single standard. His influence will overcome any inclination of his co-delegates toward any arrangement for satisfying American or other delegates.

THE Santa Fe New Mexican announces the arrival home of Antony Joseph, New Mexico's delegate. Mr. Joseph says there is no reasonable doubt about the final passage of the statehood bill by congress in December next. He says also that it has been practically agreed upon by the government to establish a large military post at Santa Fe, and the subcommittee of the House military affairs committee, of which he is a member, has been instructed to report at next session in favor of an appropriation of \$100,000 for the erection of this post. It is the latter idea which probably started the rumor that headquarters of Arizona would be removed from Los Angeles to that city.
